Note: I will prepare the golds from 5-10 gold leaves, and I will use 2 sizes bowls (one large approx. 18 cm and one small). I would also suggest having 2 different sizes bowls. Big one can be anything like a salad bowl from your kitchen. Please feel free to choose any gold from 22 carat to 11 carat depending on which colour you would like to use. The preparations will be same for all type of golds.
